TTYs FOR HEARING IMPAIRED CITIZENS

Some City offices are equipped with TTYs (Teletypewriter). These devices are for use by hearing impaired citizens who have a TTY in their home or have access to a TTY. The hearing impaired citizen calls a TTY number to type in a message to the City agency. The City agency then provides information back through the TTY to the hearing impaired citizen or communicates with other City offices on behalf of the citizen.

Please see page 43 for a listing of agencies that have TTY equipment and can be reached at the specified numbers.

ALEXANDRIA CITY GOVERNMENT

CITY COUNCIL	Business	Alternate
Mayor William D. Euille	703.746.4500	703.576.7136
Assistant to the Mayor - Lillian Thompson	703.746.4500	703.683.2414

Sean M. Garrick, Assistant to the City Manager	703.746.3719

**ALEXANDRIA CITY GOVERNMENT
TELEPHONE DIRECTORY**

	PAGES
General Information.....	1-2
<i>Call.Click.Connect</i>	3
Departmental Listings.....	4-46
Staff Listing.....	47-71
Cross Reference Index.....	72-75

DIRECTORY INFORMATION: The directory listings have been assembled alphabetically by department, their divisions, and other government agencies. General information regarding municipal operations and the use of the telephone is included in the directory. A master alphabetical listing of staff personnel is included following the departmental listings. A cross-reference index can be found at the back of the directory to assist in locating listings. Additional sheets are included for recording frequently called numbers and new listings. City Hall mailbox numbers are listed on the back cover as a convenient reference.

HOW TO PLACE CALLS

INTEROFFICE CALLS: The VOIP telephone system allows you to dial the last four digits only when calling a number within the City government. If you are a not a VOIP user, dial all ten digits to reach a City extension.

CALLING DIRECTLY TO STAFF EXTENSION NUMBERS: Most departments have main telephone numbers that are answered by an automated attendant (recording). Please listen and follow the instruction as most of the menus have been changed. If the person called is not available, the voice mail box will open allowing a message to be left. If you do not know the extension number, the automated attendant will lead you into a department directory of extension numbers.

LOCAL AND LONG DISTANCE CALLS: Local calls are those calls placed by dialing 9 plus 10 digits to numbers outside of City VOIP telephony system. The City is charged a message unit of 9.6 cents for each local call. Calls to the “extended dialing areas” in the metropolitan area are placed as local calls, but carry additional charges. For example, calls to Leesburg, Dale City, Manassas, and Haymarket cost up to 20 cents per minute. Local calls within the Washington Metropolitan Area are placed as follows:

To Northern Virginia: Dial 9 + 703 or 571 + 7 digit phone number

To Washington DC: Dial 9 + 202 + 7 digit phone number

To Maryland (Metro): Dial 9 + 301 or 240 + 7 digit phone number

Long distance calls are those calls outside the Washington Metropolitan Area and may be made by dialing “9” + “1”, followed by the area code and 7 digit phone number. See Administrative Regulation 10-6 for long distance usage and certification.

Verizon/MCI is the designated long distance carrier for the City and all official calls should be made through them. Long distance calls may be made from City issued cellular phone, unrestricted phones through direct dial or from certain designated phones. If you have questions regarding calling procedures in your department, consult your Department Telephone Coordinator before attempting to place a long distance call.

TELECONFERENCE CALLS: If there are more than three (Old System), six (new System) party, contact the ITS help desk at 703.746.3060 to request a conferencing bridge for up to 25 parties. The Conference Bridge can be established on Ad-Hoc or permanent basis. Contact your Division/Department Telephone Coordinator or call the Department of ITS Help Desk at 703.746.3060 for additional information.

TELEPHONE ADDS, MOVES, CHANGES OR REPAIRS: The Department of Information Technology Services manages the City’s telephone service. All department heads, elected officials and agency heads should contact the Information Technology Services Help Desk at 703.746.3060 for new telephone service or changes in existing service. **IT IS IMPORTANT THAT ALL TELEPHONE SERVICE RELATED REQUESTS BE COORDINATED WITH THE DEPARTMENT OF INFORMATION TECHNOLOGY SERVICES.**

Telephone lines and/or systems not working properly should be reported to the ITS Help Desk at 703.746.3060 for referral to the responsible designated repair facility.

IMPORTANT REMINDERS

- Use the telephone directory or the directory on AlexNet instead of directory assistance. Calls to long distance directory assistance cost \$1.10 each with an additional charge added if the operator's offer to connect the call is accepted.
- Use only the last four digits of the telephone number when calling within the Centrex and VoIP/DID systems or the intercom when appropriate. Local calls are 9.6 cents each.
- Do not accept collect calls without proper authorization.
- Do not transfer calls to off-network extensions.
- When ending a conference call, remain on the line until all parties have hung up.
- Before placing a caller on hold, ask first and wait for permission.
- Voice Mail:
 - Check messages often and return calls promptly.
 - Call takers should first ask callers before transferring them to voice mail.
- Report any indication of telephone fraud immediately to your supervisor.
- Safeguard PIN numbers and calling card numbers.

PLEASE BE COURTEOUS IN ALL YOUR TELEPHONE CONTACTS. REMEMBER, WHEN YOU ARE TALKING ON THE TELEPHONE, YOU REPRESENT THE CITY OF ALEXANDRIA GOVERNMENT.

Please visit AlexNet for telephone system modernization project (VOIP) updates and for phone numbers changes. If you have any questions, please call the ITS Help Desk at 703.746.3060.

Call·Click·Cōnnect

YOUR GOVERNMENT@ YOUR FINGERTIPS
703.746.HELP • AlexandriaVA.gov

Call.Click.Connect. is a combination of people and technology used to deliver customer service to the public—a level of service excellence that provides updated information and solutions to the customer through a single-system, streamlined process.

This system, which replaced the “Contact Us” web application, makes recording, tracking and monitoring service requests easier, allowing you to see what’s open, what’s pending, and what’s completed.

Call.Click.Connect. places City government “at your fingertips” through multiple features, including:

- One number, 703.746.HELP (4357), for all customer requests and inquiries;
- Options that allow customers to create and track the status of their own requests, from start to finish, either online or by telephone.
- A Contact Center staffed with experienced professionals to respond to customer inquiries.
- The ability for the City to use information documented through **Call.Click.Connect.** to track service request trends, determine emerging policy concerns, improve service delivery and make better policy decisions.

For more information, visit the **Call.Click.Connect.** page on alexandriava.gov/ContactUs, or call the City’s Contact Center at 703.746.HELP (4357).
